Customs Filing Service

Global Customs Security Filing without potential fines for each infraction.

Confident Global Customs Self-Filing Service

SmartLink Customs Filing application frees you from the complex self-filing procedure. It empowers you to confidently prepare and complete customs declarations in a timely manner supported by advanced automation and research capabilities.

In a cloud-based single platform, we help improve the efficiency of the customs responsibilities covering global customs filing such as Automated Manifest System (AMS), Importer Security Filing (ISF), EU ENS, Japan AFR, and Canada eManifest.

Key Features and Benefits

PDF Automation

Our data extraction system fills in the selffiling form according to your unstructured PDF data.

Direct Data Exchange

We directly exchange data with national customs authority systems.

Easy-to-use User Interface

We help increase filing productivity with User-friendly UI and Template functions.

Reliable Self-Filing Solution

We comply with local rules and customs procedures in multiple countries, with a deep understanding of customs requirements.

Professional Services

Our customs rule experts take care of the customs process, so you don't face the potential fines for each infraction.

Our Customers

✔ 400+ Freight Forwarders and Carriers in 27+ countries use the SmartLink Customs Filing Service for customs advance declaration
